

# Workshop on Health Issues in Air Transport - Passenger Protection

22 March, 2020

# Workshop on Health Issues in Air Transport - Passenger Protection

## Introductions – Workshop Objectives

Wolfgang SANDER-FISCHER

Santiago HAYA-LEIVA

# EU support for ASEAN in aviation

40 years of  
ASEAN-EU  
relations

A shared profile -  
Single Aviation  
Market and  
Seamless Skies

Shared  
challenges –  
traffic growth,  
emerging risks,  
environment,  
health issues

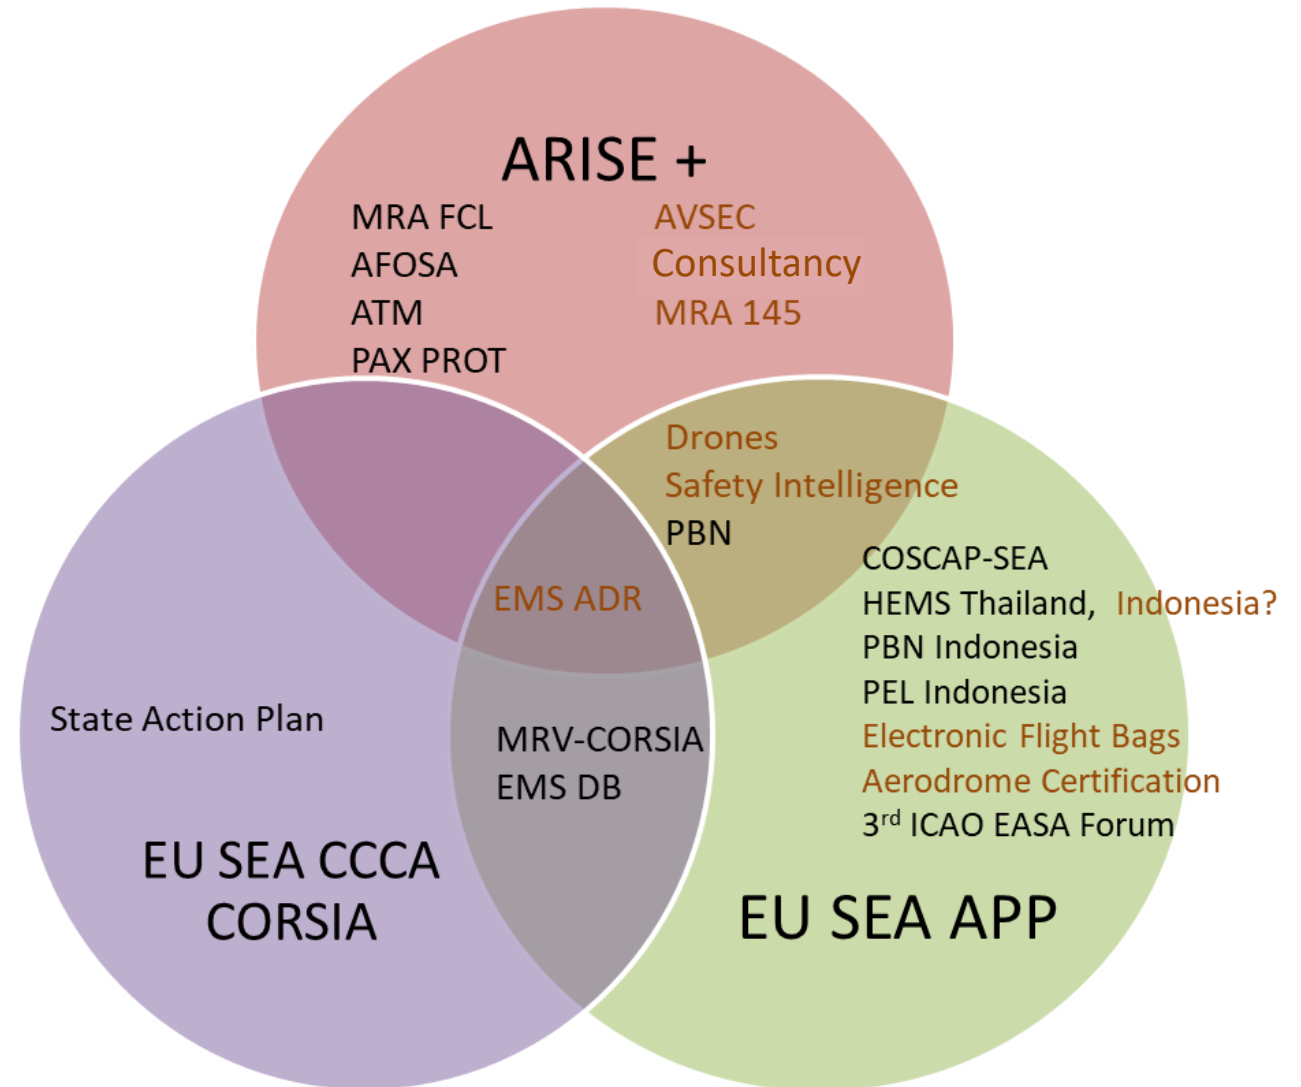

Shared  
opportunities –  
the ASEAN-EU air  
transport  
agreement

# EU Projects implemented by EASA in SEA

## Areas of Action

- Safety and Security Oversight
- SMS/SSP and Accident Investigation
- ATM and Aerodromes
- Environment
- **Passenger Protection**
- Drones
- Climate Change

# Workshop Objectives

- **Context:** ATWG (July) tasked CAAS and CAAM to work on the joint development of ASEAN-wide operational guidelines in airports and onboard aircraft of ASEAN Member States to restore passenger confidence in air transport
- **Objectives:**
  - Overall: To facilitate the AMS in developing the ASEAN Reference Document on COVID19 and Air Transport.
    - Day 1 and 2: To illustrate ongoing and developing initiatives, reflecting on their challenges and best implementation strategies
    - Day 3 and 4: To enable AMS discussions detailing their challenges and expectations on the content of the desired document

# Introductions

- Workshop split in two blocks
  - Experience from key partners (days 1&2)
  - AMS discussions (days 3&4)
- Moderator
- Speakers/Panelists
- Participants
