➤ **Part 8 = Provisions concerning passengers and crew**

✓ **Chapter 1 - Provisions for dangerous goods carried by passengers or crew**

# PROVISIONS CONCERNING PASSENGERS AND CREW

- **DG may only be carried by passengers or crew members, as described in Part 8 and Table 8-1** (Section 2 & Table 2.3.A)
- In addition, the provisions of the Instructions **do not apply to baggage** that has been **separated from its owner** during **transit** (e.g. **lost baggage** or **improperly routed baggage**) or in **excess baggage** carried as **cargo** as permitted by 1;1.1.5.1 g)
- It applies either as or in **carry-on baggage** or **checked baggage** or on their **person**
- Depending of the authorized items:
  - an **approval** could be required by the **operator**
  - **pilot-in-command** must be **informed**
- Any **organization** or **enterprise** other than an operator (such as a travel agent), involved in the air transport of passengers, **should provide passengers with information** about the types of DG which they are forbidden to transport aboard an aircraft (**notices, internet, ...**)

# PROVISIONS CONCERNING PASSENGERS AND CREW

- The regulation provide two Tables concerning DG carried by passengers:
  - ✓ **Table 8-1** for those carried by **passengers** and to be used **for personal use only**
  - ✓ **Tableau 8-2** for those carried by **staff members** of the Organization for the Prohibition of Chemical Weapons (**OPCW**) and **government agencies**, when they are on **official travel**
- Four columns are shown for the listed types or kind of DG according some items:
  - ✓ checked baggage
  - ✓ carry-on baggage
  - ✓ approval of the operator(s) required
  - ✓ restrictions

Dangerous Goods	Location		Approval of the operator(s) is required	Restrictions

# PROVISIONS CONCERNING PASSENGERS AND CREW

- **Table 8-1** contains 23 items, divided in **6 categories of danger**:
- ✓ **Batteries**
- ✓ **Flames and fuel sources**
- ✓ **Gases in cylinders and cartridges**
- ✓ **Radioactive material**

# PROVISIONS CONCERNING PASSENGERS AND CREW

➤ **Table 8-2** concerns only provisions for instruments carried by **OPCW** and **government agencies** and contains only 2 items:

Table 8-2. Provisions for instruments carried by OPCW and government agencies

	Location		Approval of the operator(s) is required	Restrictions

<i>Dangerous goods</i>				
1) Instruments containing radioactive material (i.e. chemical agent monitor (CAM) and/or rapid alarm and identification device monitor (RAID-M))	Yes	Yes	Yes	<p>→ Table 2-14 = Activity limits for excepted packages !</p> <p>a) the instruments must not exceed the activity limits specified in Table 2-14 of these Instructions;</p> <p>b) must be securely packed; and</p> <p>c) must be carried by staff members of the Organization for the Prohibition of Chemical Weapons (OPCW) on official travel.</p>

## PROVISIONS CONCERNING PASSENGERS AND CREW

➤ The entry in Table 8-1 that **most appropriately describes** the item or article **must be selected**

✓ *Note.— For instance, electronic cigarettes must meet the requirements of the entry for "Battery-powered portable electronic smoking devices" not the entry for lithium batteries or non-spillable batteries*

➤ An article that contains **multiple** dangerous goods **must meet all applicable entries**:

✓ *Note.— For instance, the restrictions and conditions for entries 1) and 14) of Table 8-1 apply to an avalanche backpack that contains lithium batteries and gas cartridges*

➤ Baggage intended to be carried in the cabin that is **placed** in the cargo hold:

➤ When baggage **intended** as **carry-on** is **taken** by the **operator** and **placed** into the **cargo compartment** for carriage, the operator **must confirm** with the passenger that DG which are only permitted in carry-on baggage have been.

→ « Passenger Questionnaire » is officially integrated in the TI !!

# PROVISIONS CONCERNING PASSENGERS AND CREW

- **DG may be carried out by passengers and crew members, if:**
  - ✓ they are permitted in accordance with **Table 8-1**
  - ✓ they are for **personal use only**
- **Consequently, (except for the reporting provisions) the provisions of the TI do not apply to the DG permitted by Table 8-1 (and 8-2) if they are:**
  - ✓ carried out by Passengers or Crew **only** for their **personal use** (*by OPCW or government staffs or for 8-2*)
  - ✓ contained in baggage that has been **separated** from its **owner** during **transit** (e.g. **lost** baggage or **improperly routed**)
  - ✓ contained within items of **excess baggage** sent as **cargo** as permitted by 1;1.1.5.1 h)

→ in clear words, we have to apply **Part 8 only**  
for DG carried out by **Pax/Crew**, while all the  
**other Parts 1 à 7** are made for **cargo packages !!**

- Any **organization** or **enterprise** other than an operator (such as a travel agent), involved in the air transport of passengers, **should provide passengers** with **information** about the types of dangerous goods which they are forbidden to carry aboard an aircraft (**as a minimum**, notices at those locations where there is an interface with the passengers, ...)
- Where provision is made for the purchase of tickets via the **Internet**, information on the types of dangerous goods which a passenger is forbidden to carry aboard an aircraft **should** be provided in either **text** or **pictorial** form and should be such that ticket **purchase cannot be completed** until the passenger, or a person acting on their behalf, has **indicated** that they have **understood** the restrictions on dangerous goods in baggage

➤ Regarding this **Part 8** (DG carried out by passengers and crew members):

☞ **States may implement additional restrictions** in the interests of aviation **security** ! ! !

➤ Concerning **devices** carried out by passengers and crew members:

☞ **active** devices must meet defined **standards** for **electromagnetic radiation** to ensure that the operation of the devices **does not interfere** with **aircraft systems**
